

Brand Identity Guidelines

Rawinnipa — Software and Consultants Company

A living document for our visual identity.

These guidelines define how the Rawinnipa brand shows up in the world — from the logo on a pitch deck to the color of a button in our products. Follow them to keep our identity consistent, recognizable, and aligned with who we are: a software and consulting team building the systems that move businesses forward.

Why we exist.

VISION

To lead the way in building a business world connected by digital fluency and advanced technology — where productivity and competitiveness are shared outcomes, and every partnership creates lasting value.

MISSION

To help our partners grow and adapt to the digital age — freely and efficiently — using software and modern technology as the engines of transformation. We build trust through quality delivery and stay close to our partners as they succeed.

How we show up.

Four personality traits shape every interaction — from a client email to a product landing page.

01

PROGRESSIVE

We build at the edge — AI, blockchain, automation — and bring those capabilities to real businesses.

02

DEPENDABLE

Twelve years of delivery. We ship systems that stay running long after launch day.

03

COLLABORATIVE

Partners, not vendors. We treat our clients' wins as our own and invest in long-term success.

04

CLEAR

Complex technology, simple delivery. We strip out jargon so decisions can actually get made.

The mark.

An enclosed monogram — R and W fused inside a continuous circle — the mark reads as unity, momentum, and connection.

PRIMARY / FULL COLOR

THE CIRCLE

Continuity and completeness — an unbroken loop that holds everything together.

THE MONOGRAM

Two letters, one path — R and W share strokes, suggesting interconnection and forward motion.

THE GRADIENT

Teal to lime — the spectrum of growth, freshness, and technological vitality.

Variations.

Four approved treatments. Pick the one with the highest contrast against your background.

PRIMARY

Full-color gradient

REVERSED

White on dark

SOLID GREEN

Single-color accent

MONOCHROME

Black on light

Clear space & scale.

Give the mark room to breathe. Keep a minimum buffer equal to 'X' — one-quarter of the logo's height — on every side.

MINIMUM SIZE

Never display the logo smaller than these thresholds — below this, legibility breaks down.

24 px

DIGITAL

40 px

RECOMMENDED

15 mm

PRINT MIN.

Don't.

Protect the mark. These six misuses distort what the logo is trying to say.

Don't stretch

Don't recolor

Don't rotate

Don't add effects

Don't outline

Don't low-contrast

Primary colors.

A green spectrum for growth and technology, anchored by deep black for authority.

PRIMARY

RAWIN GREEN

#3EDC81

RGB 62, 220, 129
CMYK 72, 0, 41, 14
PMS 7481 C

DEEP TEAL

#23B591

RGB 35, 181, 145
CMYK 81, 0, 20, 29
PMS 3395 C

LIME ACCENT

#9DC351

RGB 157, 195, 81
CMYK 19, 0, 58, 24
PMS 2296 C

DEEP BLACK

#0A0A0A

RGB 10, 10, 10
CMYK 0, 0, 0, 96
PMS Black C

Neutrals & signature gradient.

Grays ground the palette for text and UI surfaces. The gradient is reserved for hero moments.

SIGNATURE GRADIENT

#23B591 → #3EDC81 → #9DC351

Typefaces.

Inter for everything digital. Calibri as the office-safe fallback. No decorative fonts in brand materials.

PRIMARY

Inter

Aa Bb Cc 1234567890

Weights Regular · Medium · Semibold · Bold

Usage Digital UI, website, presentations, pitch decks

Source Google Fonts · open license

FALLBACK

Calibri

Aa Bb Cc 1234567890

Weights Regular · Bold

Usage Office documents, emails, internal files

Source Preinstalled on all Office systems

Hierarchy.

Six roles, used consistently. Pick the role first — then the size follows.

H1 / Display

Build what moves.

Inter Bold · 52 / 60

H2 / Section title

Software. Consulting.

Inter Bold · 34 / 42

H3 / Sub-heading

Twelve years of delivery.

Inter Semibold · 22 / 30

Body / Paragraph

Clear words for complex systems.

Inter Regular · 14 / 22

Caption

Labels, footnotes, timestamps.

Inter Regular · 11 / 16

Eyebrow

SECTION TAG

Inter Bold · 10 / 14 · Tracking +60

Visual language.

Three motifs you'll see everywhere the brand shows up.

DARK CANVAS

Black and near-black grounds give content gravity and let green pop. Use for hero sections, covers, and formal decks.

GREEN ACCENT

A single green element per composition — a corner ribbon, a divider, a key word. Never flood the frame with green.

GEOMETRIC + FLUID

Clean geometric layouts paired with fluid metallic shapes (as in the company profile) — structure meets movement.

How we sound.

We talk like experienced engineers, not marketers. Plain, concrete, and confident.

WE ARE

Direct

Plain-spoken

Confident

Technical when needed

Honest about trade-offs

WE AREN'T

Vague

Jargon-heavy

Boastful

Technical for show

Overpromising

In the wild.

Three standard touchpoints — business card, email signature, social avatar.

BUSINESS CARD / 85 × 55 mm

EMAIL SIGNATURE

SOCIAL AVATAR / CIRCULAR CROP OF LOGO
